

South Australia kangaroo harvesting statistics: Annual population estimates (\pm standard error), commercial quotas and harvests for Red Kangaroo, Western Grey Kangaroo and Euro in SA from 1975-2005. Population estimates for Red and Western Grey Kangaroos are based on broad-scale aerial survey of the SA pastoral zone. Population estimates for Euros are based on localised walked surveys using line transect methodology. Population estimates are not intended to represent the total size of kangaroo populations in SA.

Year	RED KANGAROO				WESTERN GREY KANGAROO				EURO		
	Population	\pm s. e.	Quota	Harvest	Population	\pm s. e.	Quota	Harvest	Population	Quota	Harvest
1975			64,000	35,710			12,000	9,384		4,000	390
