NORTHERN ADELAIDE PLAINS PRESCRIBED WELLS AREA
TRANSFER OF LICENCES AND WATER ALLOCATIONS PROVISIONS

Effective from 14 January 2002

1. All transfers (temporary and permanent) are subject to a 20% reduction in the total volume of water transferred. The reduction will be imposed on the licence receiving the transferred water allocation. For example: if 1,000 kL is applied for transfer, the licence receiving the allocation will receive 800 kL only and the remaining 200 kL will be retained by the Minister.
2. At the completion of a temporary transfer the volume of water retained by the Minister for the term of the transfer will be returned to the licence that transferred the allocation.
3. Where a water allocation transfer is to one (or more) of the persons listed below the Minister may waive the reduction in water allocation and the total volume applied for transfer may be approved. A signed declaration and/or other supporting documentation verifying that the transfer is to one (or more) of the persons listed must be provided with the application to transfer.

Parent

Brother or Sister

Lawful spouse – person who is married to the licence holder at the date of the transfer application

Putative spouse – person adjudged under the *Family Relationships Act 1975* to have been a putative spouse of the licence holder either at the date of transfer or at some earlier date

Child – includes a person who is recognised as a child of the licence holder by virtue of the *Family Relationships Act 1975*

Partner – if the water allocation constitutes an asset of a partnership that jointly holds the licence

4. Where the holder(s) of the transferring licence applies for a water allocation transfer to another licence held by the same entity, the Minister may waive the reduction in water allocation and the total volume applied for transfer may be approved.
5. Where the whole licence, including its water allocation, is to be transferred to another person or legal entity as a result of the sale of land upon which the water has been authorised for use, the Minister may waive the reduction in the water allocation.
6. Applications for water allocation transfer must be received in the Department for Environment and Water prior to completion of the licence year in which the water allocation transfer is to be in effect, i.e. prior to 30 June. Applications seeking retrospective approval will not be favourably considered.
7. The Department may collect salinity samples from the relevant extraction points (licensed wells) applicable to all licences that apply for a permanent or temporary transfer. Failure to provide access for the collection of samples will delay consideration of the transfer application.
