

Reptiles of Lower Fleurieu Peninsula

This reptile list was compiled by Chapman (1987) from locality maps included in Cogger (1975), records of the Herpetology Section of the South Australian Museum and information supplied by G. Coombe (personal communication) of the National Parks and Wildlife Service. Surveys undertaken by the South Australian Herpetology Group on 21 March 1976 and 23 October 1983 confirmed the presence of a number of these species in the park.
