Management Plan Amendments

The Upper Gulf St Vincent Marine Park Management Plan was adopted in 2012. It provides the statutory basis for the management of Upper Gulf St Vincent Marine Park. It is a strategic document that defines the boundaries of the various zones and sets out strategies to address management challenges.

The Minister for Environment and Water may amend a marine park management plan at any time. As required under the Marine Parks Act 2007, a draft amendment must first be prepared and released for public consultation.

The Upper Gulf St Vincent Marine Park Management Plan Draft Amendment is now released for public consultation. Members of the public are invited to make a submission. After all submissions have been received and considered, a final marine park management plan amendment will be prepared and forwarded to the Minister for Environment and Water for consideration, together with an analysis of submissions received.

This draft amendment proposes the following alterations to the Upper Gulf St Vincent Marine Park Management Plan.
**Amendment 1 – General Managed Use Zone (GMUZ-1)**

An area to the southeast of Ardrossan is proposed to be added to the Upper Gulf St Vincent Marine Park. Amendment 1 will extend the existing GMUZ-1 to adjoin the proposed Habitat Protection Zone (HPZ-1) (southern extension) (see Amendment 3). The extension of GMUZ-1 is subject to the proposed alteration of the Upper Gulf St Vincent Marine Park boundary.
